Dear Mr. Chrystie:

This is in regard to your recent letter to Bill Quan and a prior phone conversation that you had with him regarding the hazardous nature of Hugo Neu-Proler Company's "shredded steel scrap". In short, the Department does not consider the scrap as hazardous waste.

If you have any questions regarding the above, please feel free to call Bill Quan of my staff at (916) 324-3754.

Sincerely,

David J. Leu, Ph.D., Chief
